

**Request for Proposals (RFP) for Grant Writing Services
Douglas County, Nevada
Questions and Answers**

Question #1	As it pertains to the Grant Writing RFP, I wanted to confirm that the maximum consultant fee per hour would be \$50/hr.
Answer #1	There is no artificial cap pre-established in the RFP limiting what a respondent can propose as a particular hourly rate for the RFP. The example of \$50/hour was just provided to show that whatever rate is offered by the winning respondent and accepted (in the example, \$50/hour) would serve as a cap on actual work under a contract. So, an respondent can propose whatever hourly rate(s) they deem reasonable and that rate will have to be evaluated along with all other proposals received, as part of the cost evaluation.
Question #2	Does Douglas County have an updated Strategic Plan or Community Needs Assessment Plan?
Answer #2	The most recent Strategic Plan documents are located here: https://www.douglascountynv.gov/government/board_of_county_commissioners/strategic_plan
