## WATER CONSERVATION

### FRIENDLY REMINDER

May 1, 2021

Dear Customer:

This notice serves to remind customers that outdoor watering from public water systems for the purpose of irrigating lawns, gardens, trees, grass, shrubbery or other vegetation, regardless of irrigation method, is not allowed between the hours of 1:00 pm and 5:00 pm, all year. We recommend watering between the hours of 8:00 pm and 5:00 am to help vegetation retain moisture.

To reduce the impact on your water supply during the expected high heat of summer, we respectfully request your cooperation in conserving water by observing the following voluntary watering schedule for the irrigation of lawns, gardens, trees, grass, shrubbery or other vegetation, effective May 1, 2021 through October 31, 2021:

- **Premises with an odd-numbered address shall be limited to watering on Tuesday, Thursday, and Sunday.**
- **Premises with an even-numbered address shall be limited to watering on Monday, Wednesday, and Saturday.**

We also request that customers do not plant new lawns between July 1st and September 30<sup>th</sup>.

Your cooperation in practicing good water conservation measures has a significant impact on the operation of your water system. Also, please remember that it is a violation of Douglas County Code, Title 20.F.30 to waste water by allowing water to pool, pond or runoff your property from over-watering.

You can find additional conservation measures in Appendix B of the Douglas County Utilities Water Conservation Plan on our web site. <https://www.douglascountynv.gov/>
