d/u = dwelling unit

\* Mackland change in density: 900 d/u's with Receiving Area (draft MP); 75 d/u's with SFR (1996 MP); 197 net increase in d/u's with SFE (1998)

\*\* Nevada Carson Ranch Receiving Area assumed a 1-acre density, same as Receiving Area. Otherwise, density could be 708 (12 d/u's per acre)

\*\*\* Nevada Northwest LLC Specific Plan removes 260 MFR units, adds 378 residential units, and removes 735 residential units, which is the max. in RA

**Note: Actual density approved with conforming zoning amendments may be less than the land use designation approved for each Master Plan Amendment.**
