Describe how the funds were used to serve Douglas County residents.

No scholarship funds were utilized up to FYE 2022 of 6.30.23, as no participants signed up for classes

Describe how the organization measured the success of the program/project. Provide qualitative and quantitative measures.

The project was unable to be quantified during this time period as there was no participant attendance

Provide any changes or challenges to the original project plan and how it affected the project.

Changing venue location during summer of 2022 did not allow the project to be able to utilize indoor space, hence the severe winter and extreme cold did not allow us to kick off the project until late April 2023. Project promotion took place at that time, without success and the funding was only able to be utilized until 6.30.23
